Department of Business and Economics

Bachelor Business Information Systems

Business Information Systems

Information technology and telecommunications are becoming increasingly important to the economic cycles and daily running of businesses and organisations. That's why the purpose of the multidisciplinary Bachelor's study programme Business Information Systems of the Berlin School of Economics and Law (BSEL) is to connect basic scientific content with methods of disciplines such as Business Information Systems, Business Administration, Social Science, Law and Economics.

Special emphasis is put on theoretical substantiated, methodical aligned and practice-oriented education. Furthermore students are trained in communication and team skills.

Graduates of the study programme Business Information Systems receive with their Bachelor's degree an internationally recognized qualification. This opens the path to jobs in business, and also allows for continuing education. They are thus well prepared for entry into business and administration, and are capable of working responsibly on the conception, planning and introduction of complex IT projects in such environments.

Classes take place in German as well as in English. Be it a semester abroad or an internship in a foreign country, the BSEL supports its students fully in their choice.

Berlin School of Economics and Law

The Berlin School of Economics and Law (BSEL) is one of the largest Universities of Applied Sciences in the city. It has an academic staff of 190 professors and approximately 770 lecturers, plus nearly 240 research and administrative personnel, committed to realising about 50 study programmes.

The BSEL portfolio provides a wide range of professional qualifications. The University forms an academic centre specialised in business and administration skills for the public and private sector, as well as public security, the law and engineering. The majority of programmes lead to a Bachelor or Master degree, have been quality controlled and are accredited by a German agency.

The BSEL offers a pleasant, modern atmosphere that is ideal for studying. The programmes comprise small class courses where each student has a chance to interact with the department and their peers. The campus offers well equipped seminar and lecture rooms, an extensive library and several fully equipped computer rooms.

With numerous networking activities, excellent corporate contacts and a close relationship with 130 partner universities worldwide, we guarantee that student life is enhanced by applied expertise and an international approach.

Students of this programme benefit from the membership in the academic programmes Oracle Academic Initiative, SAP University Alliance Program, Microsoft University Alliance Program, Sybase University Alliance Program, SUN Academic Alliance.

Key facts

Type of study programme

Full-time

Duration of study programme

7 semesters (including an obligatory practical semester)

Semester begins

1 October (winter semester)

1 April (summer semester)

Programme structure

The Bachelor's study programme has a First and a Second Section. The sixth semester during the Second Section is a practical semester, which can be taken abroad.

Languages of instruction German or English

Qualification

After successfully completing the study programme, the student is awarded the academic degree of *Bachelor of Science (B. Sc.)* by the Berlin School of Economics and Law. Graduates of the study programme receive their first jobqualification degree which is internationally recognised. Corresponding to their qualification they also have the possibility of gaining the academic degree of *Master of Science (M. Sc.)* by then going on to pass a Masters study programme.

Fee

There are no tuition fees on this programme as it is funded through public grants. Students are required to pay a semester fee. The semester fee includes a contribution to the Studentenwerk Berlin, the student representative body as well as the enrolment and administration fee and a semester season ticket for the local public transport systems.
